

High-fidelity

Speech Graphics has developed the first high-fidelity lip-sync solution driven by audio. Based on two decades of research and development in speech animation, we achieve reliable and controlled results with unprecedented quality.

FOR EVERY CHARACTER FOR EVERY LANGUAGE FOR EVERY LINE OF DIALOGUE

HAVE CONFIDENCE IN LIP SYNC

We make speech technology for facial animation. Our award-winning, multi-lingual solution uses acoustic analysis and muscle dynamics to drive your character's face to accurately match the words and emotion in the audio.
