by **Scottish Development International** • 1 year ago • 300 views  
<http://www.sdi.co.uk/creative> Speech Graphics has developed the first high-fidelity lip-sync solution driven by audio. Based on two...

Speech Graphics uploaded and commented 1 year ago

Hey folks. Regarding movement in the upper face, this was deliberately not included in the demo since we wanted to focus on what was done automatically from the voice. However see our recent blog entry on this topic on our website and see the February 16th article in Develop Online on our collaborative work with Audiomotion, combining upper-face mocap with audio-driven lip sync.

### Speech Graphics Multilingual Voice-Driven Lip Sync
